Employee Scheduling

Build a schedule with just a few clicks. See labor costs, weather forecasts, and employee availability all in one place.

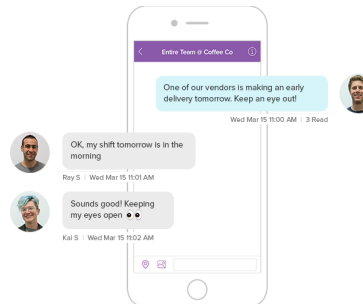

Reporting & Compliance

With Homebase and Clover integration, running reports on the business is fast and easy. Stay on top of labor reporting, on time arrival, breaks, payments, tips made throughout the shift and timesheet compliance.

Time Clock and Timesheets

Track employee hours & overtime across all locations, prevent early clock-ins and easily export to payroll.

Team Communication

Keep the whole team on the same page. Send schedules, shift reminders, and messages across the team to share information quickly.

"Homebase gives us an incredibly high level of control and support when it comes to employee management, saving us money, time, and headaches."
